

## An Introduction To The KODT Articles Catalog (Issues #1 - #125)

This catalog sprang from my desire to find my favorite KODT articles by a means other than opening random issues and hoping to strike pay dirt. It was initially just going to be a reference to the gaming material in the Game Master's Workshop and Player's Advantage sections. Jason Zavoda and others had already compiled thorough lists of some of the other regular departments (available in the Forums Area of the Kenzerco website) and I didn't think there was a need to improve on them.

But as I cracked open issue #1, I thought, heck if I'm going to go through every issue, I might as well be comprehensive. Had I know then that this list would run to around two thousand entries I'd have stuck with my original plan. I really should have taken a closer look at all those fat issues late in the run.

So what does this catalog include? Just about everything except the actual KODT strips, Cries from the Attic, Table Talk, One-Two Punches, Back Room at the Games Pit, Game Vine, News and Parting Shots. Oh and Ads. I don't do Ads. Why didn't I include all that? Because I do have a life, and this catalog needed to be of somewhat reasonable length to remain useful.

Which brings me to how this catalog is organized. I decided early on it would be a waste of time trying to do this alphabetically by title or author. Because when you go searching for a dungeon map or a movie review or a GM article you know roughly what you're looking for even if you don't know the title or the author. So everything is grouped by categories.

For example: you remember reading about some kewl Elmore minifigs way back. So you find your Category: Game, Media and Product Reviews. Then you find the Department Title: Figuratively Speaking. All the issues that Department ever occurred in are listed followed by the title of the article and author. Thus:

### [Game, Media and Product Reviews:](#)

#### [Figuratively Speaking:](#)

K81 Dark Sword Miniatures and Elmore: Elmore Set #1 (by Kevin Walker)

For those who want to search by title or author, the gawds gave you a "Find on this Page" search function.

I didn't put page references in because once you know what issue it's in, it's pretty easy finding the articles themselves.

My thanks go out to those who have gone before in compiling KODT article lists. And my admiration goes out to all those who have written so much for this magazine. I was genuinely stunned at just how much good stuff has been crammed between these covers for all these years. And if this little taste doesn't sell you on ordering one of those sweet KODT back issue mega-pack deals or dusting off your old issues for another read through, well, you got no Gaming Soul, that's all I've got to say. For the rest of us: Enjoy the trip down memory lane. Hoody-Hoo!

David Trotti
